

ILLNESS POLICY

Parents are asked not to send their child to school if they are running a temperature or have been unwell in the night.

Children need at least 48 hours recuperation at home.

There are limited facilities for looking after sick children at school, and they may spread infection to others.

Diarrhoea and vomiting – please keep your child at home for **48 hours following the last bout** of either, even if they seem well in themselves. This is highly contagious to staff and other children.

In the event of illness or an accident at school, parents will be contacted immediately and asked to collect their child. In urgent cases, if we are unable to contact the parent we will seek emergency help immediately.

We do not administer medication to children except in exceptional cases, and after discussion with Mrs Wilkins. In these circumstances, you will be asked to complete and sign a medicine administration form daily.

It is essential that up to date contact details for all parents/carers be given to the school.

SUNSHINE

Please apply sunscreen to your children **before** coming to school. A named sun hat will be allocated to your child and will remain in the nursery at all times.

Smocks are worn to cover most of their skin. However, as our English weather is so unpredictable please always ensure your child has appropriate clothing, including suitable footwear, befitting of the season.

TOYS

Please do not bring in any personal items from home except on our designated 'show & tell' mornings, and the object relates to the outlined focus. It gets very ugly when things get broken or misplaced!
